HYGROTECH carries out stringent trialling throughout South Africa prior to releasing varieties into the market place. We strongly recommend that all varieties be trialled under your growing conditions prior to commercial sowings taking place. All cultural and descriptive information is supplied in good faith, as a guide only. Varietal performance is influenced by many variables, namely climatic, soil conditions, cultural and management practices. No liability will be accepted by HYGROTECH or its representatives as to final performance based on this information.
